How You Say It

Dona Herweck Rice

What is the best way to say something?

The right words depend on where you are.

They also depend on who is around you.

What if something does not make sense?

With friends you may say,
“I don’t get it.”
With your teacher you
may say, “I do not
understand.”

What if you dislike a strange food you just tasted?

**With friends you may say,
“Yuck!”**

**With your family you may
say, “I do not care for
this.”**

**What if you are
running late?**
