Make It

# Unusual Art

Heather E. Schwartz

Artists turn ideas into art.  
How do they do it?  
They might use paint, clay,  
or metal.  
They might use wood,  
sand, and food.

Artists work with paint.  
They choose colors and a  
blank canvas.  
A canvas can be square  
or round.  
Some look like rectangles.
