Pet Rabbits

Rabbits are small animals
that can be kept as pets.

Lots of people keep pet rabbits
at home.
Some schools keep pet rabbits, too.

For Review Only

There are white rabbits
and black rabbits.
There are brown rabbits
and grey rabbits.

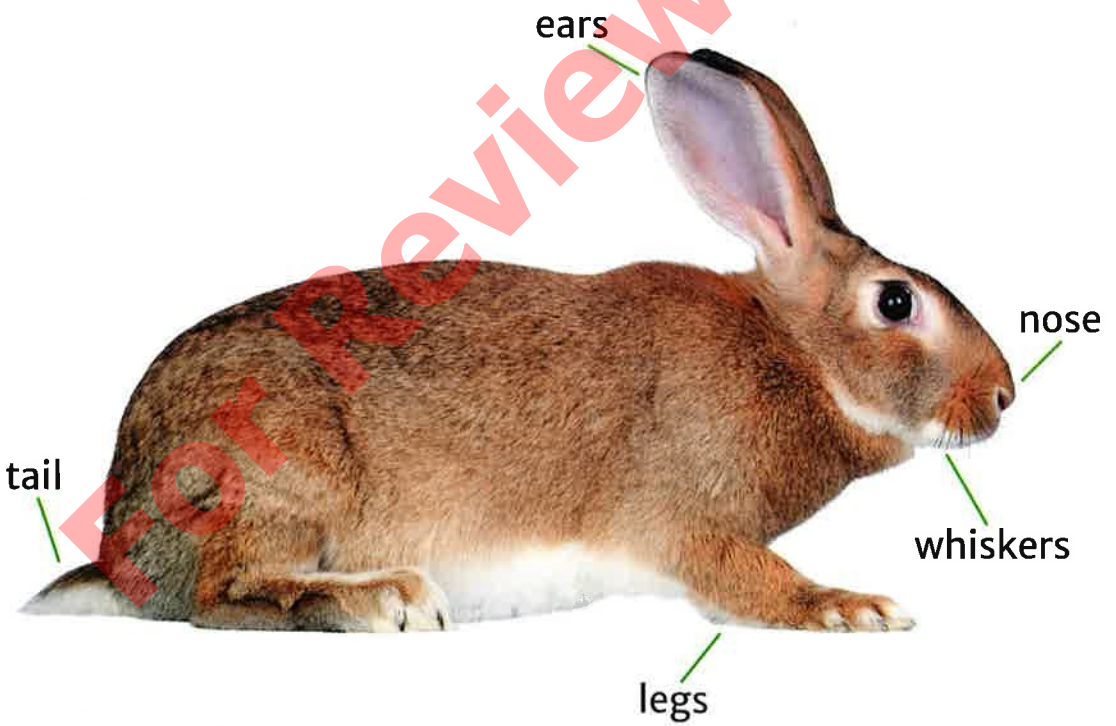

There are rabbits with spots, too!

For Review Only

Rabbits have long ears.
They move their ears around
to help them hear things.

Rabbits have whiskers on their nose,
and sharp teeth inside their mouth.

For Review Only

Rabbits have four legs
and a little tail.
They can hop around very quickly.

Some rabbits are small.
Other rabbits are very big.

Looking After Rabbits

Rabbits can be kept
in a **hutch**.

The hutch can be put inside a house
or out in the garden.

Rabbits sleep, eat and play
in their hutch.

For review Only

Rabbits need lots of clean straw
in their hutch.

They need lots of room to hop around,
and toys to play with, too.

A rabbit hutch needs to be out of the sun
on hot days, so the rabbits can stay cool.
