Pet Goldfish

Goldfish are small fish.

A lot of people keep goldfish in their homes as pets.

Review Only

Most goldfish are gold, orange or red,
but some are white or black.

Some goldfish have spots.

For Review Only

A goldfish has two eyes.

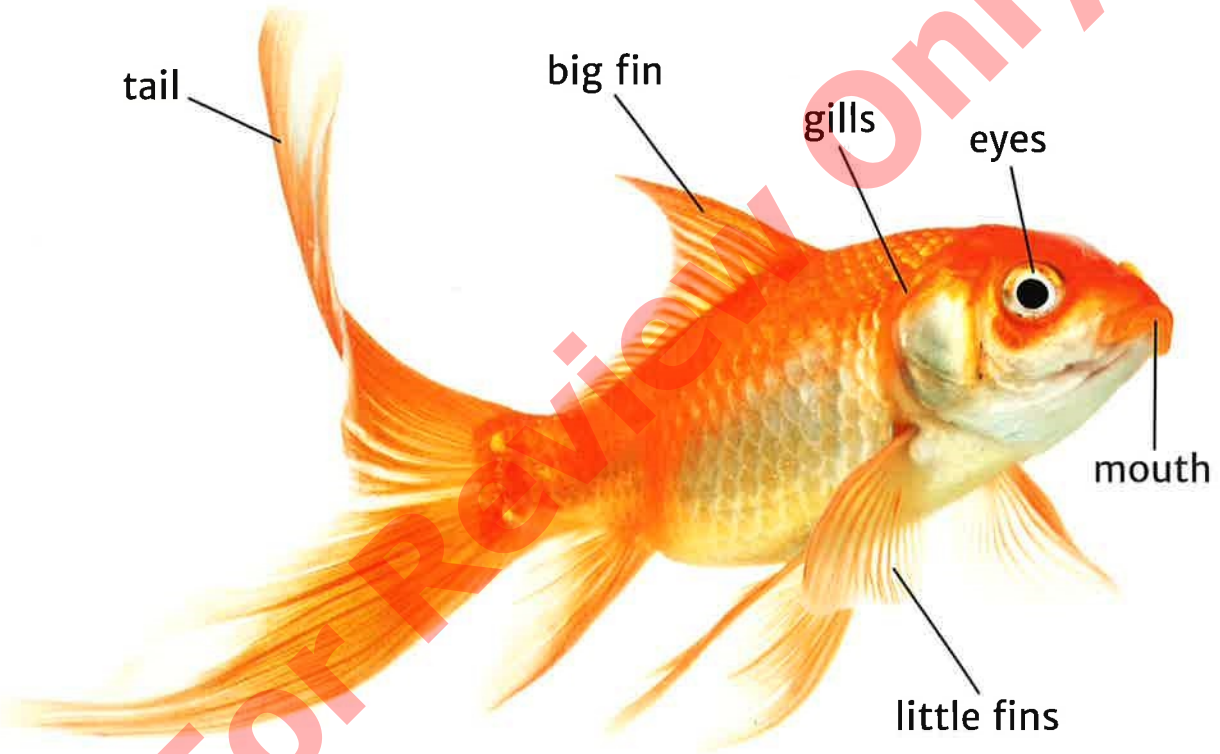

It has a mouth,
and **gills** on each side of its body.

A goldfish has a wavy tail.

It has one big **fin** on its back
and five little fins under its body.

Its fins and tail
help the goldfish to swim.

How Goldfish Breathe

Goldfish breathe the air that is in the water in a tank or pond.

When a goldfish opens its mouth,
water goes into its mouth
and out of its gills.
The gills take air from the water.
