A Dentist in a Van

Today, I went to see
a **dentist** at school.

This dentist was not like other dentists
I have seen before.
He came to school in a van!

The van had a room in the back
where the dentist saw the children.

It was my turn to see the dentist
in the afternoon, just after lunch.

As I waited by the door of the van,
I looked inside.

I could see a big chair
in the middle of the room.
Beside the chair, there was a little table
with the dentist's **tools** on top.

Soon, the **nurse** called me inside.

She told me that her name was Tessa,
and that the dentist was called Rami.

Rami gave me a big smile.

Then, Tessa asked me to sit down
in the big chair.

When I was ready,
she put a **bib** around my neck.
