Giant Pandas

By Annette Smith

For Review Only

Giant pandas are bears.

They are very big animals.

Pandas live in forests,

up in the mountains.

Giant pandas have
black and white fur.
The black and white fur
can help them to hide
in snow and in the forest.

Pandas have little eyes,
but they can see in the dark.

Giant pandas have to eat
a lot of food.
They eat ... and eat ...
and eat!

Then, they sleep ...
and sleep ...
and sleep all day.
