# Tait's pack

This is Mana Pools National Park. It is in Zimbabwe, near the Zambezi River. The park is home to a lot of different animals. Sometimes the park is rainy, and sometimes it is **dry**. Many animals come to the river and drink the water.

Mana Pools National Park

Tait is the **leader** of this pack of painted wolves. They live in Mana Pools National Park.

# Tait's daughters

There are three wolf packs in Mana Pools. The packs have their own **territories**, and Tait's pack has territory near the river. There is food all year.

Two more wolf packs live near Tait. The leaders of these packs are Tait's daughters, Janet and Blacktip.

**A lion**

Some lions have territory between Tait and Janet. Lions do not like painted wolves, and they often kill them. The wolves do not usually go into the lions' territory.
