A Long Way from the City

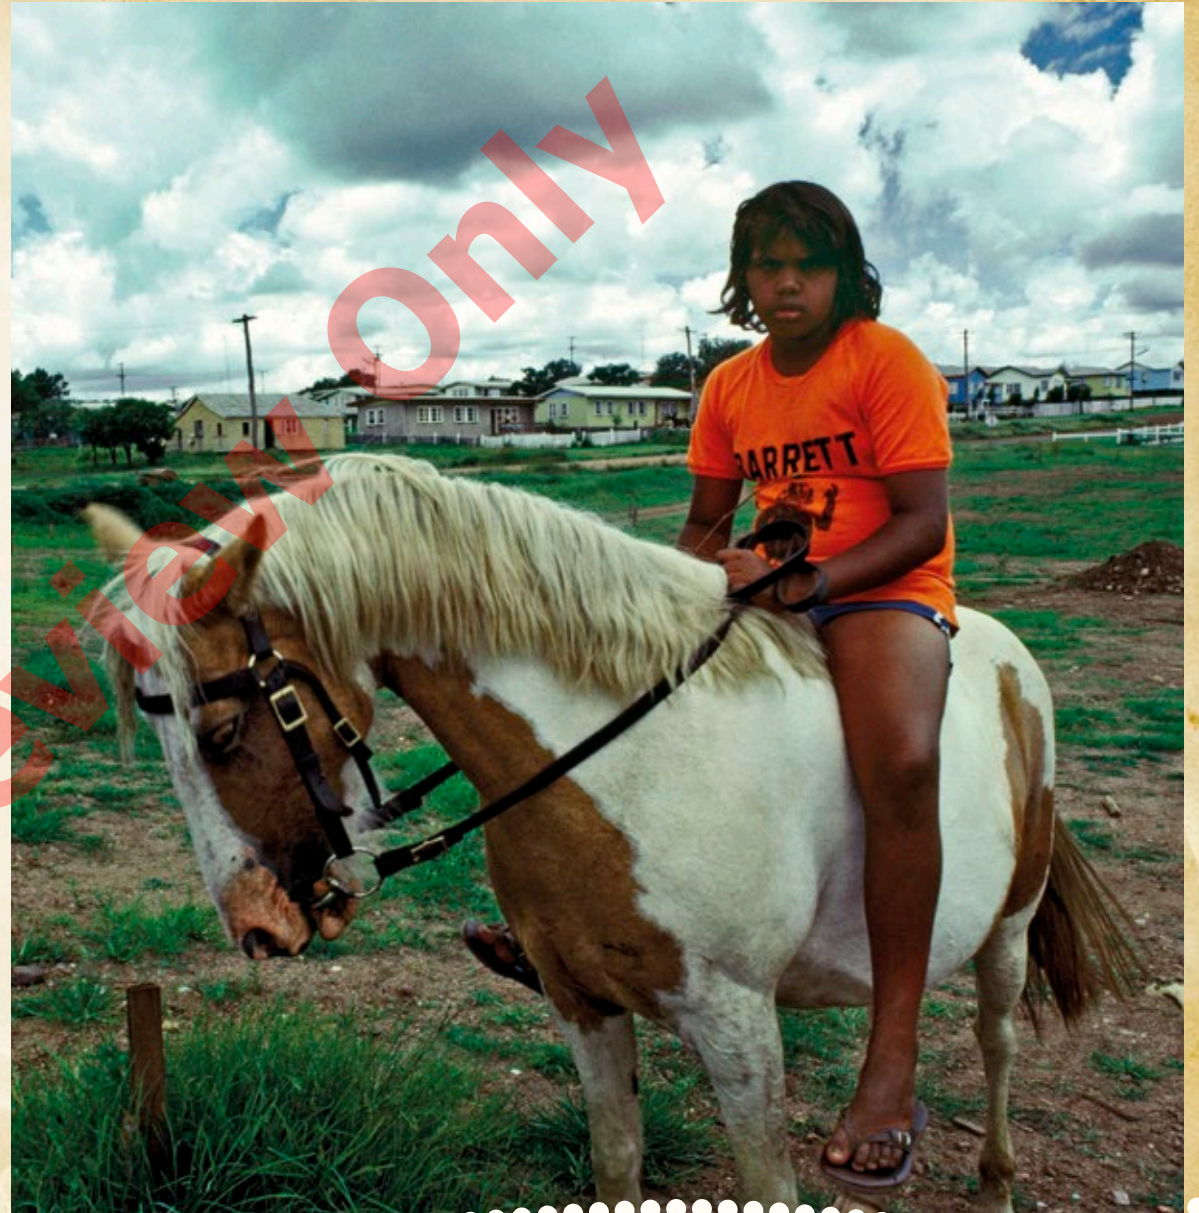

This town is a long way
from the city.

It is not big.

There is no doctor in this town.
There is no hospital.

Now, though, a health worker
has come to help.

He will check the ears
of every boy and girl in town.

A Special Van

The health worker drives
a special van.

The van has big,
bright paintings on it.
It is a van that helps boys and girls
stay healthy.

Special Machines

There are special machines in the van.

The health worker uses the machines.

He takes pictures of the boys' and girls' ears.

He takes pictures of their noses.

He takes pictures of their throats.

The pictures help him see if there is anything wrong with their ears.
