Plants All Around

We see plants every day.
Do you know what plants need to grow?
Let's find out.

Plants are all around us,
including in the park.

Let's Do an Experiment

We can test what a plant needs.
We can check how beans grow with and without sunlight or water.

Bean plants grow quickly when they have what they need.

Did You Know?

Young bean plants can be grown in **cotton wool balls.**

The cotton acts like **soil**.

A dried bean can sprout in cotton wool balls.
