Birdhouses

Shapes

Logan Avery

A photograph showing a person's arm, wearing a blue sleeve, working on a wooden birdhouse. The birdhouse is positioned against a green door with a dark handle. The background is slightly blurred, showing a window with vertical blinds. A large, diagonal red watermark reading "For Review Only" is overlaid across the image.

Our birdhouse is
shaping up!

The walls are
rectangles.

The door is a
circle.

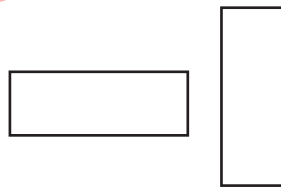

For Review Only

Math Talk

1. What 2-D shapes make a birdhouse?

2. Meg draws these shapes:

Are both shapes rectangles? Why or why not?
