An Old Place

The world is old. People have lived here for a long time. They have built homes and other buildings.

These are some of the ruins in Tulum.

For Review Only

A few of the oldest places still **exist**. One of those places is Tulum (too-LOOM). It has many **ruins**.

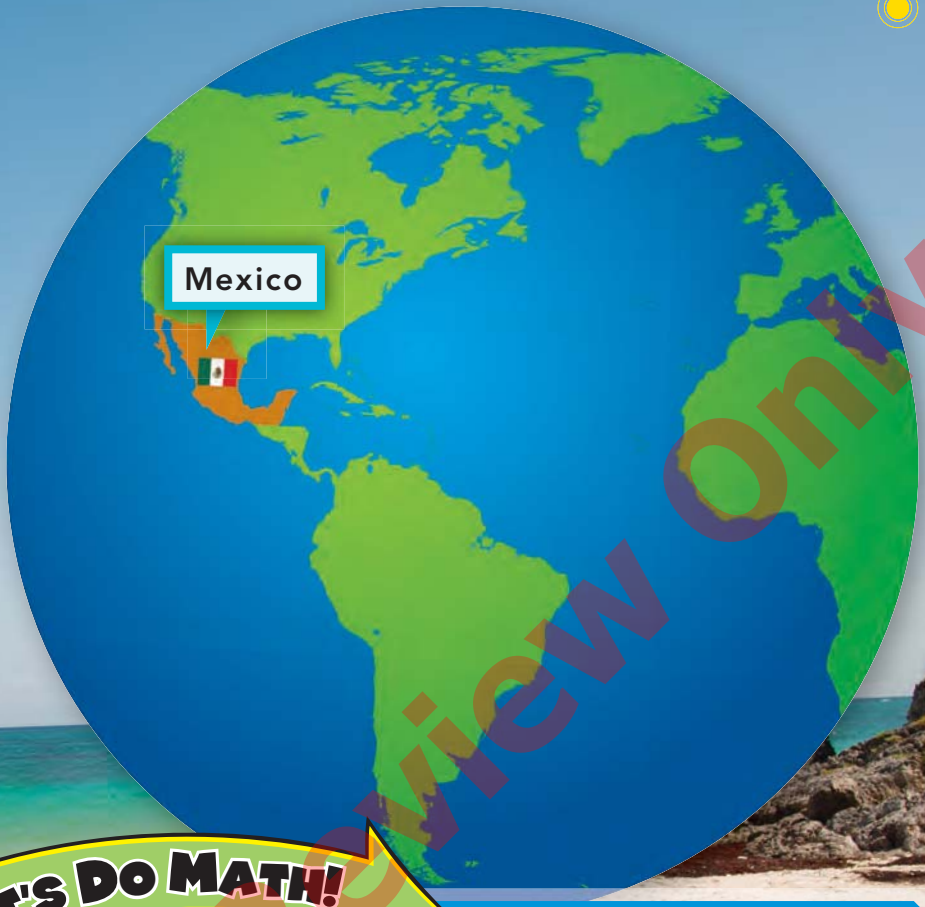

For Preview Only

Tulum is on the **coast** of Mexico. It was one of the first cities built with a wall around it. Now, it is a national park.

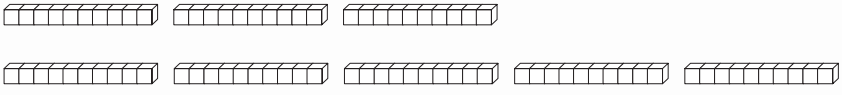

This temple is the largest building in Tulum.

Visiting Tulum

People from around the world visit Tulum. They come to see the ruins. They come to see the land and beaches, too.

Math Talk

1. Jess writes 20 + 30 = 50.

   Davi writes

$$\begin{array}{r} 20 \\ +\ 30 \\ \hline 50 \end{array}$$

   How is their work alike and different?

2. How does making groups of 10 help you add?

3. How can knowing 7 + 2 help you add 70 + 20?

4. Jung says, "Every time I add a two-digit and one-digit number, the total is greater than 20." Do you agree? Why or why not?
