Soo Yun's Book

Written by Sharon Callen
Illustrated by Clare Elsom

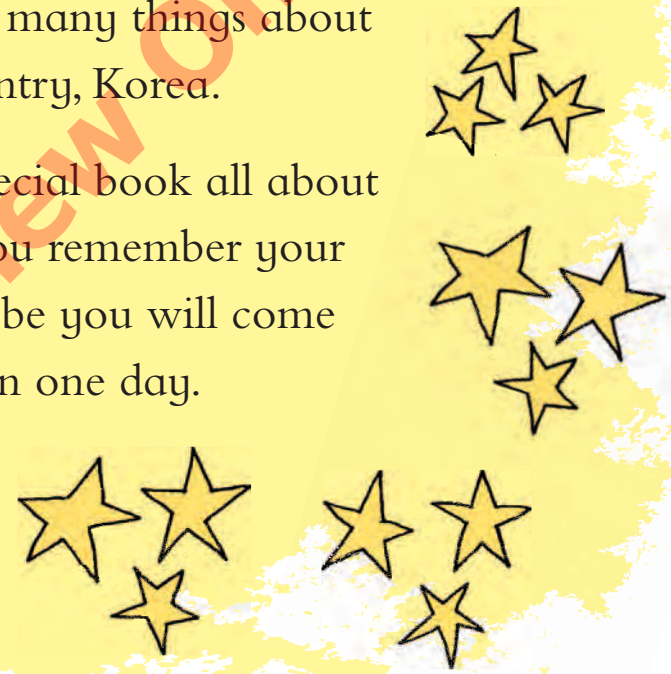

Dear Soo Yun,

It has been wonderful having you at our school. We have learned many things about you and about your country, Korea.

We made this very special book all about you! We hope it helps you remember your friends in America. Maybe you will come and live in America again one day.

We will miss you.

Love from Class 2F

I remember meeting Soo Yun on the first day of school.

We didn't know each other, but I sat with her. She told me about her family. We both have a little brother and a big sister.

She is very funny and she likes to read a lot. Now she is my best friend, and I am sad she is leaving.

I remember when I went to Soo Yun's house and we were given little dried fish. I didn't want to eat them, but Soo Yun told me they were her favorite snack. I tried one and it tasted great. I tried all kinds of different foods at her house. I miss sharing Soo Yun's little dried fish at school.
