Growing Bananas

Where do bananas grow?
Bananas first grew in Malaysia.
Now, they grow
in a lot of hot places.
Farmers grow bananas
on fruit farms.

Banana Plants

A banana plant has a stem made of leaves. It is the biggest herb in the world.

Banana Leaves

Banana leaves are big.
They can give us a way
to stay dry in the rain.
They can give us shade.
They can give us
a plate to eat off.
