On the Go

If you are going out
or going to school,
how will you go?
You could walk,
but going on a bike is faster.

For teachers' inspection ONLY

Big and Tiny

Trucks can be big
and cars can be tiny.
Big trucks are good
for moving heavy loads.
Tiny cars are good
for parking in tiny spaces.

For teachers' inspection ONLY

Fast and Slow

Some cars are fast
and some machines are slow.
Some cars are so fast,
they have parachutes
to stop them going.
Some machines are so slow,
you could walk faster!
