# All Kinds of Jobs

There are all kinds of jobs.
People choose their jobs carefully.
They should do a job they enjoy
and are good at.
When people do their jobs well,
it helps our towns and cities
run well.

People do many jobs
that help us.

# Teaching Jobs

Some people teach children.
They help children learn things.
Teachers don't just work in schools.
Some teach sports, crafts, or music.
We should be glad we have teachers and coaches.

A coach shows us how to play a sport.

This teacher shows a boy how to do sign language.

# Caring Jobs

Some people help care for us.
They don't just have to be doctors
to care for us.
They can be dentists, nurses,
or first-aid workers.
They don't just help when we're sick.
They also teach us
how to look after our bodies.
We should listen to them.

A doctor checks a boy's ears.

A dentist shows a girl how to look after her teeth.
