Introduction

Where do you live?
Do you live near the sea or in the hills?
Is it hot in summer?
Is it icy in winter?
The weather in an area makes up its **climate**.

Boys on a beach in India

Different areas have different climates. An area with a single climate that is different from the areas next to it is called a **climate zone**.

These children enjoy playing in the snow.

People adapt their clothing, food, and houses to fit their climate zone.

These ways of living that they develop through the years are their **traditional** ways of living.
