Life Cycle

Plants are living things that grow and change over time.

Grandpa Tree

The oldest tree is over 4,000 years old!

For teachers' inspection ONLY

They have **life cycles** (SAHY-kuhlz).

For teachers' inspection ONLY

A plant starts its life cycle as a seed.

For teachers' inspection ONLY

The seed needs water, air, soil, and sunlight.

For teachers' inspection ONLY

Let's Do Science!

What are the parts of a plant? Try this and see!

What to Get

- paper and pencil
- plant (with roots)
- scissors
