Day and Night

In the morning, the bright **sun** wakes us.

For teachers' inspection ONLY

This is daytime.

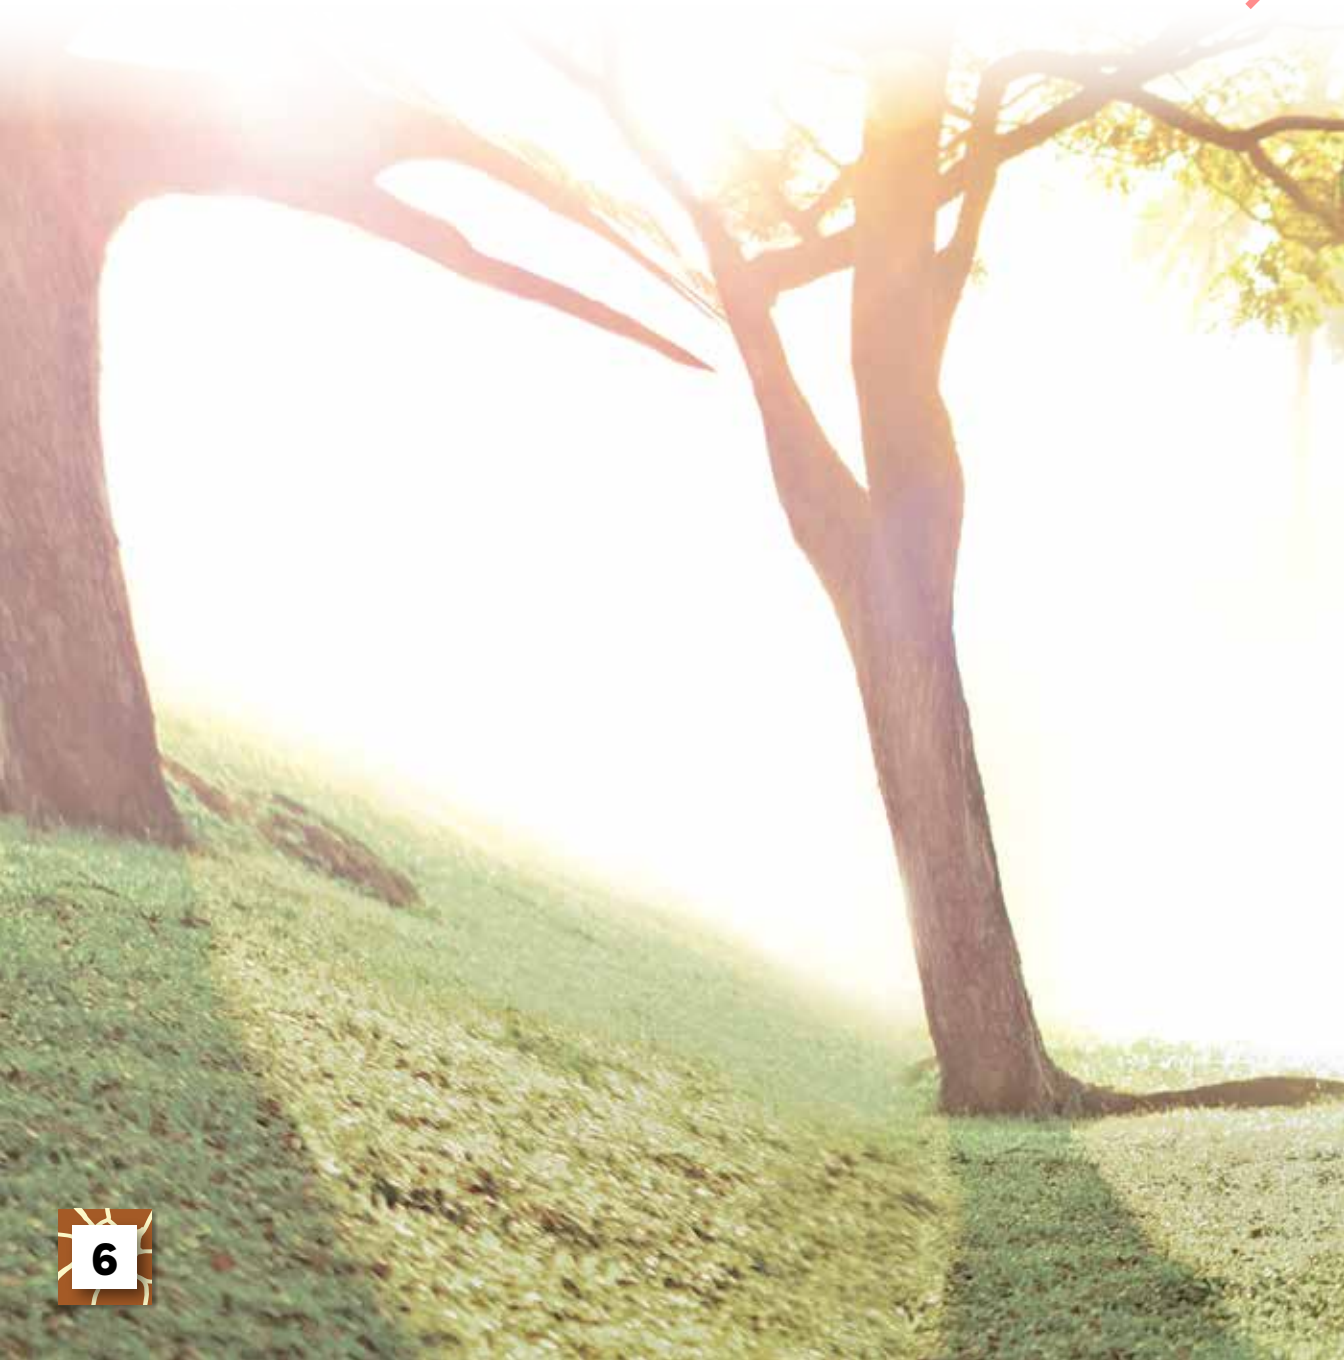

Dawn

Dawn is the morning, just before we see the sun.

For teachers' inspection ONLY

Through the day, the sun looks higher in the sky.

For teachers' inspection ONLY

We feel its **warmth** and see its light.

For teachers' inspection ONLY

Let's Do Science!

How does the sun affect objects?
Try this and see!

What to Get

- black rock
- ice cube
- newspaper
- paper and pencil
- timer
- unwrapped chocolate bar

For teachers' inspection ONLY

What to Do

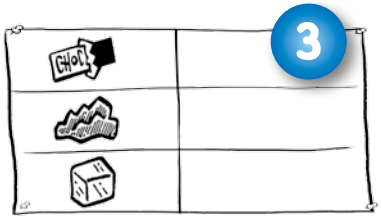

1. Lay the newspaper on the ground on a hot day.

2. Place each object on the newspaper.

3. Draw a picture of each object in a chart.

4. Watch the objects for about 30 minutes. Then, write what happened to the object. Touch each item and describe how it feels, too. (Be careful of the hot rock!)
