Everything around us is made of matter.

metal
spoon

balloon

wooden
blocks

water
and sand

modeling clay

crystals

Some things are solids. The sugar is a solid.

Some things are liquids.
The water is a liquid.

Some things are gases. Balloons are filled with air. Air is a gas.

When we mix water and sand they form a mixture. The water and the sand do not change. Nothing happens.

When we mix water and salt something happens.

water

salt

The salt mixes in with the water.

Let's do an experiment. Let's mix wooden blocks and water. Let's see what happens!

wooden blocks

water
