Informational Text

Use the genre information below to help you
read this book.

The sun is a star.
It is a ball of fire
that is in the sky.

For Review Only

For Review Only

The rays of the sun travel through
the air. The rays shine on Earth.
Sun rays warm the water
and the trees.

For Review Only

You can make energy using the sun's rays. This energy is called solar power.

For Review Only

The sun shines on solar panels.

The panels are made
of many solar cells.

The light energy of the sun hits
the cells. This energy
brings electricity to houses.
