CHAPTER 1

WHAT DO THEY DO?

What can vacuum your floor, drive you to school, and even play a game of fetch?

A robot! Robots are machines, but they are so much more. They are machines that can sense, think, and act.

For Preview Only

We use robots for many things. Robots who work in the home usually do jobs that people would rather not do.

pool cleaning robot

There are robots that vacuum and wash your floors. They mow lawns and clean pools.

Some robots can serve you a meal. Others protect your house when you are away.

DID YOU KNOW?

Household robots exist in a world built for people. That's why so many of them are built to look like us. Robots that look like people are called **androids**.
