Legs and Eggs

Look! What is that?

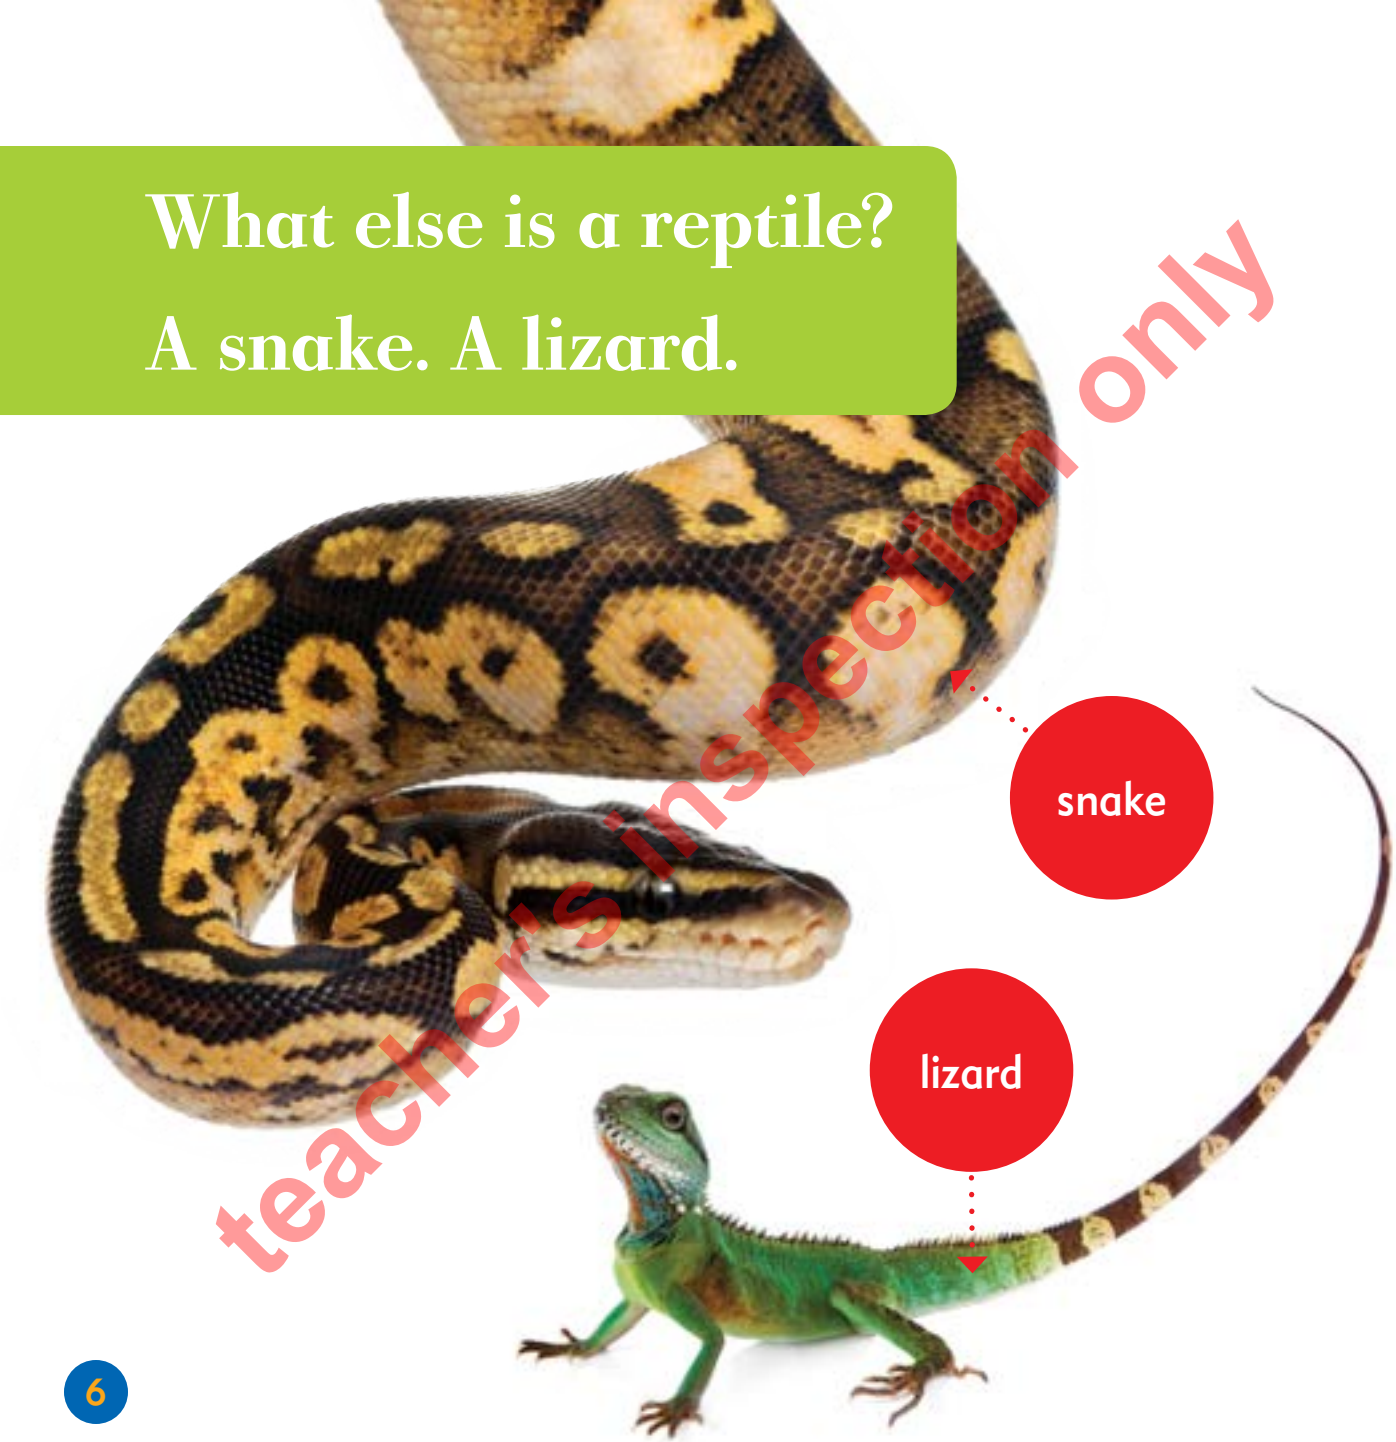

teacher's inspection only

teacher's inspection only

What else is a reptile?

A snake. A lizard.

teacher's inspection only

A turtle.

What do they have in common?

teacher's inspection only

teacher's inspection only

They are cold-blooded.

Look! An iguana
basks in the sun.

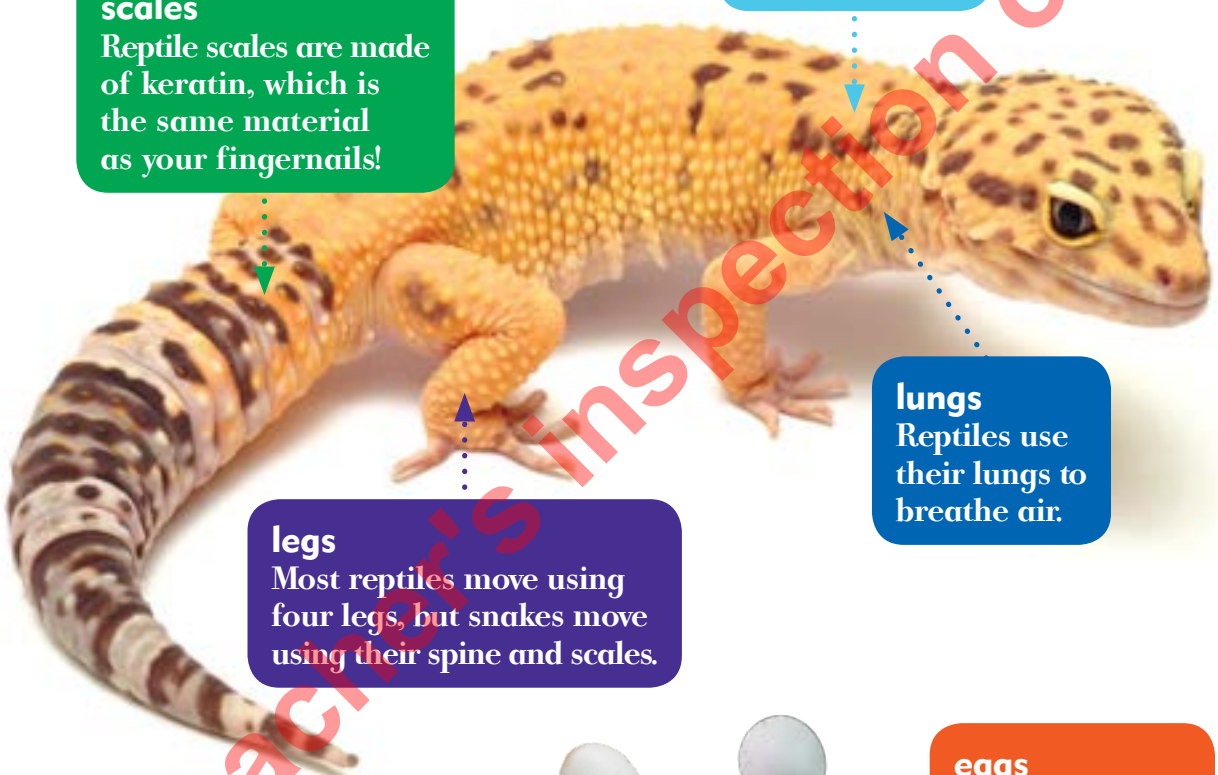

He needs the sun
to keep warm.

What Makes a Reptile?

backbone
All reptiles have a backbone.

scales
Reptile scales are made of keratin, which is the same material as your fingernails!

lungs
Reptiles use their lungs to breathe air.

legs
Most reptiles move using four legs, but snakes move using their spine and scales.

eggs
Most reptiles lay eggs, but some snakes give birth to live young.
