

SPACE VOYAGER

MARS

Bullfrog Books

Ideas for Parents and Teachers

Bullfrog Books let children practice reading informational text at the earliest reading levels. Repetition, familiar words, and photo labels support early readers.

Before Reading

- Discuss the cover photo. What does it tell them?
- Look at the picture glossary together. Read and discuss the words.

Read the Book

- "Walk" through the book and look at the photos. Let the child ask questions. Point out the photo labels.
- Read the book to the child, or have him or her read independently.

After Reading

- Prompt the child to think more. Ask: Scientists think that perhaps Mars once had the elements necessary for life. What sorts of things do you think a planet would need in order for living things to survive there?

Small and Red

What is the fourth planet from the sun?

For Review Only

It is Mars!

For Review Only

It is red.

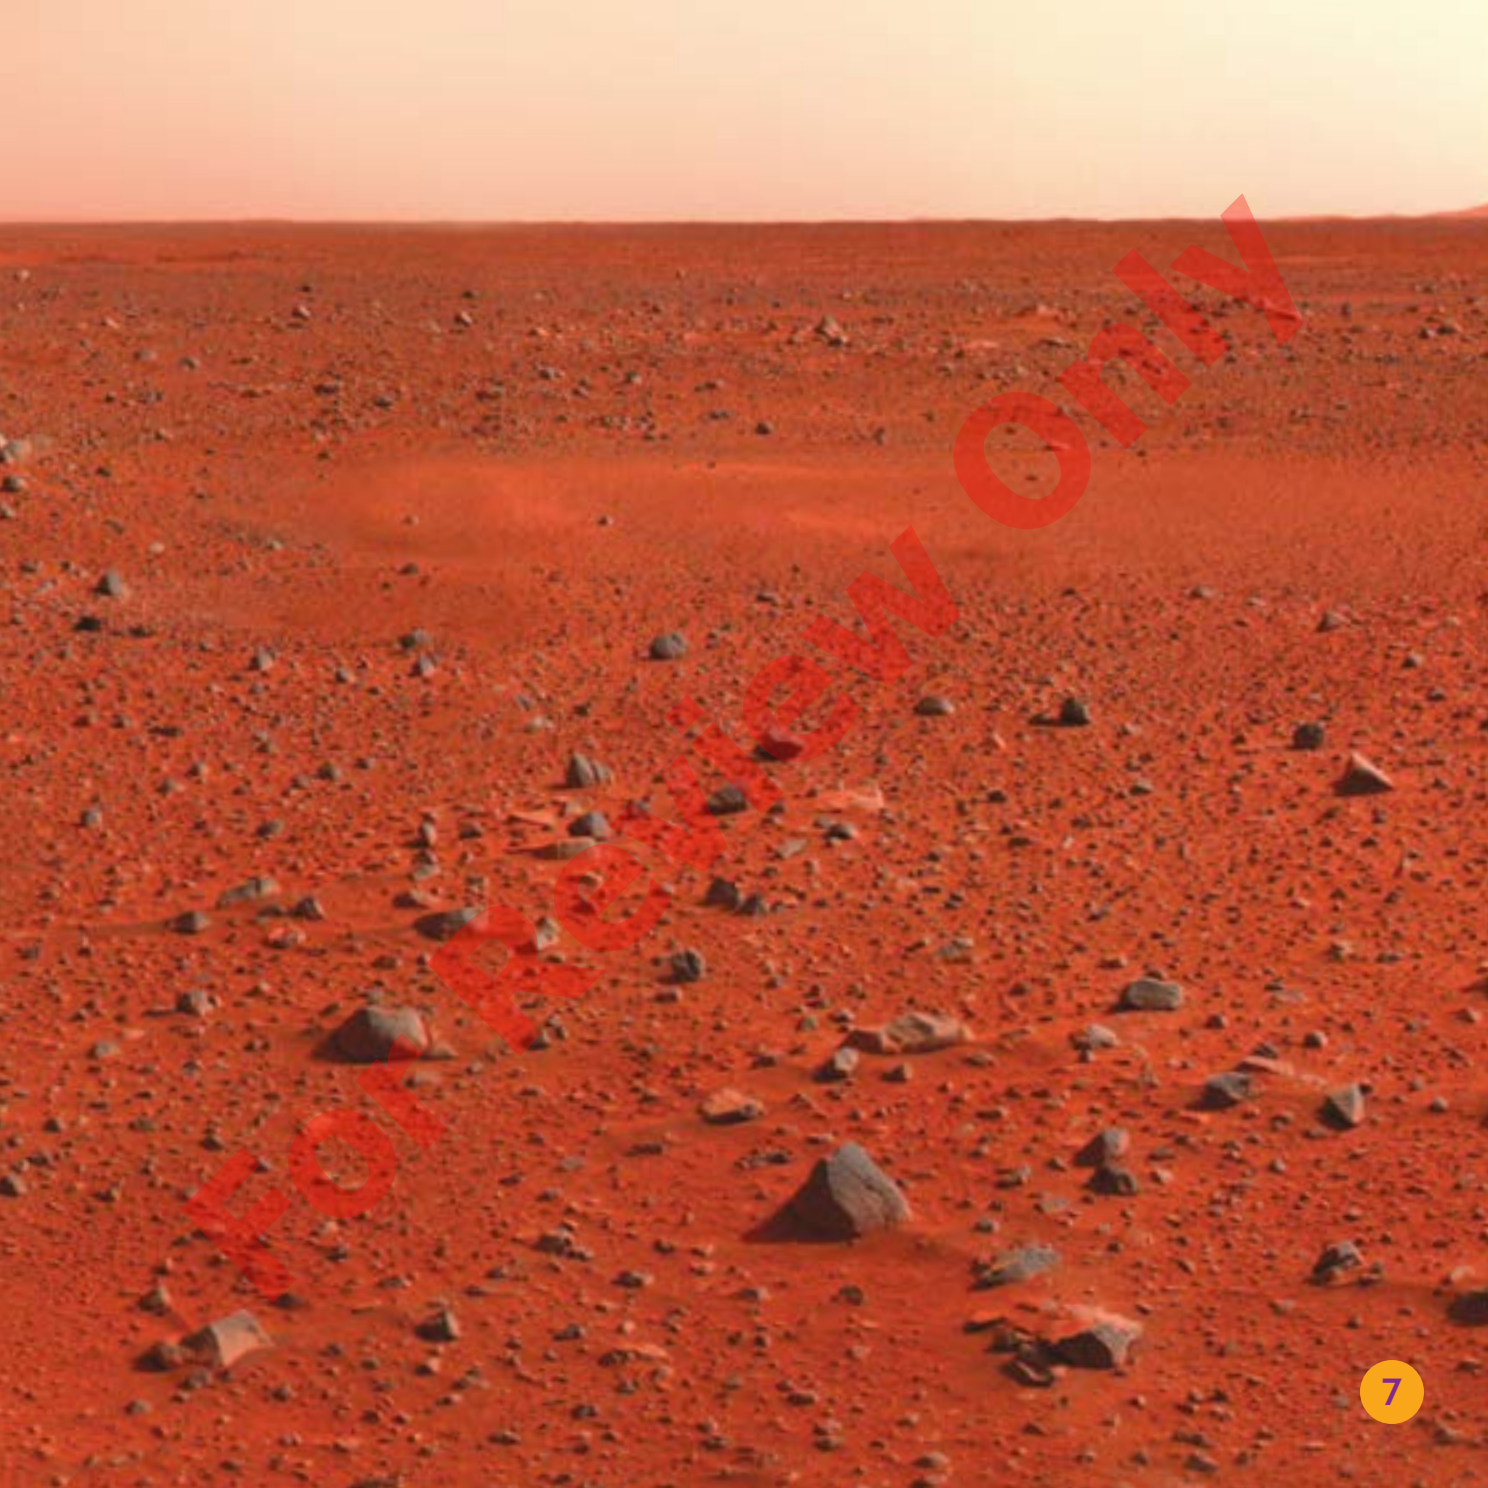

Why?

The soil has iron in it.

Iron makes it look red.

For Review Only

For review only

Mars is small.

It is half the size of Earth.
