CHAPTER 1

CAR PARTS

Have you ever ridden in a car and wondered what made it go? What powers the **engine**? What makes the wheels turn?

Cars are amazing machines. How does a car work? Let's find out!

The most important part of a car is the engine. The engine creates the power that makes a car move.

For Review Only

electric car

Engines need **fuel** to run. Most cars use gasoline as fuel. Some cars run only on electric power. These are electric cars. Some cars run on a mix of gas and electricity. These are **hybrid** cars.
