# Measure and Mix

“Let’s bake a cake!”  
says Brady.  
He reads the recipe.

He has all the ingredients.

He adds butter to a bowl.

Now he needs 1 cup  
of sugar.

But he can only find a  
 $\frac{1}{2}$  cup to measure with.

“I know!” he says.

He measures two  $\frac{1}{2}$  cups.
