

KIDS LIVING GREEN

LET'S SAVE WATER!

Bullfrog Books

Ideas for Parents and Teachers

Bullfrog Books let children practice reading informational text at the earliest reading levels. Repetition, familiar words, and photo labels support early readers.

Before Reading

- Discuss the cover photo. What does it tell them?
- Look at the picture glossary together. Read and discuss the words.

Read the Book

- "Walk" through the book and look at the photos. Let the child ask questions. Point out the photo labels.
- Read the book to the child, or have him or her read independently.

After Reading

- Prompt the child to think more. Ask: Saving fresh water and using it wisely is important. How do you help save water every day?

Let's save water!

Why?

For Review Only

Most of Earth's water is in oceans.

It has salt.

For Review Only

We have to treat it.

This uses energy.

Then we can drink it.

For Review Only

There is only so much fresh water.

We can save it every day.

How?

Jon turns off the water.

Picture Glossary

energy
Power from coal, electricity, or other sources that makes machines work and produces heat.

faucet
A device with a valve that turns the flow of water on or off.

oceans
The bodies of salt water that cover nearly three fourths of the Earth's surface.

treat
To clean or change. Salt water is treated at a plant to remove the salt so we can drink it.
