UNIQUE US

We're all different. Big or small, old or young,
we each see the world in our own way.

How can we share our **unique** points of view with others? We can **express** ourselves!

DOING IT DIFFERENTLY

Expressing ourselves can be **creative**. We use our **imagination**s to think differently. What can happen when we do?

We may find new ways to solve problems.

We can think outside the box.

We could come up with brand-new ideas!

When was the last time you
used your imagination?

COMING TOGETHER

Creativity helps us share who we are. It can show how we feel, what we think, and how we see the world. We can express ourselves by writing, drawing, or making music.

We can also learn about others when they are creative. Sharing with creativity and imagination helps us understand one another better.
