CHAPTER 1

WHAT IS AI?

You watch a show on your tablet. The last **episode** ends. But you want to watch more. An **app** asks for ideas. You type them in. The app **generates** a new episode just for you!

How does it do this? It uses **artificial intelligence** (AI). AI lets computers do things humans use knowledge and skills to do.

People who work in **entertainment** use AI. This includes people who work on movies, shows, and music. How does AI help them? It writes stories. It creates pictures and videos. It works with sounds, too. AI is changing entertainment!

DID YOU KNOW?

Why do people work with AI?
It is fast. People can make more movies, shows, and music.
It saves companies money, too.

CHAPTER 2

AI ON THE SCREEN

Moviemakers use AI. How?
Each movie needs a **script**.
Writers make one. AI reads it.
Then AI suggests ways to
make it better.

script

**Who would be the best actor for a movie?
Where is the best place to shoot a scene?
AI could suggest these, too.**

ACTIVITIES & TOOLS

TRY THIS!

MAKE A MOVIE WITH AI

What sort of movie could AI help you create?
Come up with ideas with this fun activity!

What You Need:

- paper and pencil or a device for taking notes

- 1 Think of a movie idea. Where will **your** movie take place? Who are the characters? What **will** **happen** in the story?
- 2 Write out a few scenes. **Detail** **what** **happens**.
- 3 Make a list of what your **movie** **needs**. This could include sets, costumes, makeup, and special effects.
- 4 Think of ways for AI **to** **help**. Write down your ideas. Share them with a **friend** or family member.
