Growing Peas

Heather Hammonds

For Review Only

Peas are very good for us.
You can eat them hot
or eat them cold.

For Review Only

Peas are vegetables.

They grow inside pea pods.

Pea pods grow on pea plants.

For Review Only

You can grow some pea plants!

You will need:

a big plant pot

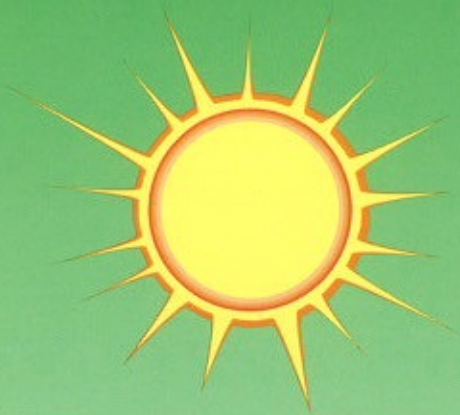

soil

pea seeds

For Review Only

a warm, sunny place

string

two sticks

water

For Review Only

Pea plants need soil
to help them grow.
Their roots go down into the soil.

Put some soil into the pot.

For Review Only

Pea plants like to climb up things.
They grow little shoots
to help them hold on.

Put the sticks into the pot.
Then put the string around the sticks.
