Made of Wood

By Julie Haydon

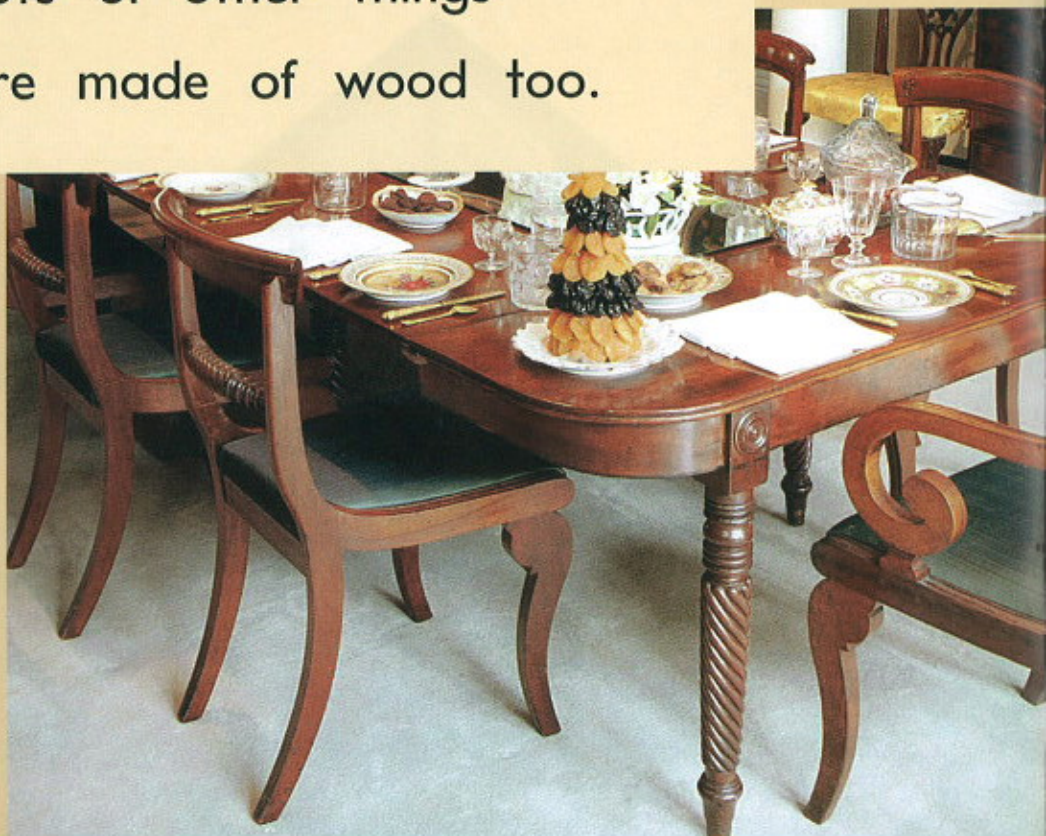

Wood

For teachers' inspection ONLY

This table and these chairs are made of wood.

Lots of other things are made of wood too.

Wood comes from trees.
Most wood comes from trees
that grow in forests.

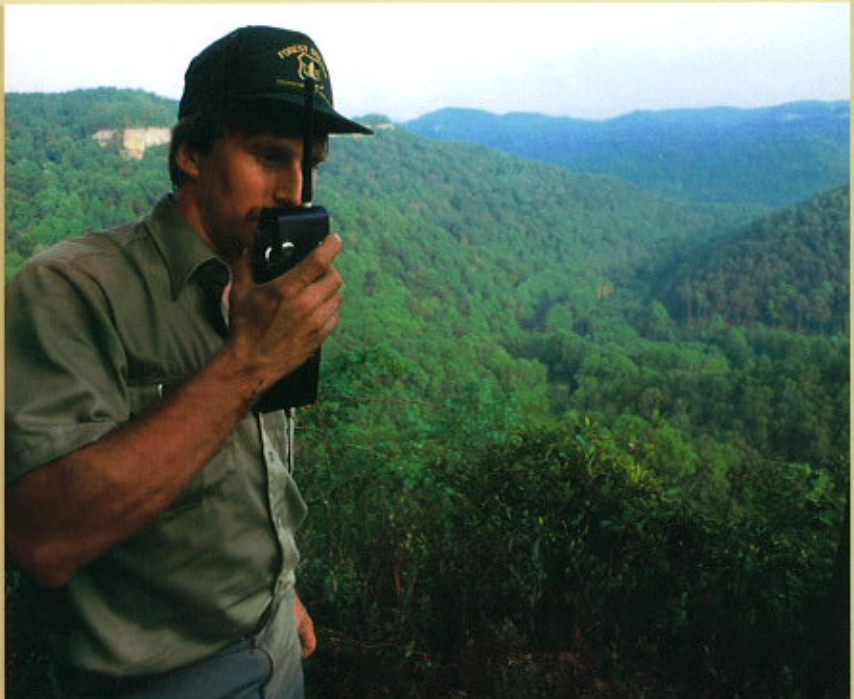

For teachers' inspection ONLY

Forests

For teachers' inspection ONLY

Lots of trees grow in a forest.
Forest workers take care
of the forest.
They keep the forest healthy.

The forest workers mark the trees that can be cut down.

If all the trees are cut down, the forest will die.

For teachers' inspection ONLY

Logs

The trees with marks are cut down.

The branches are cut off the trees.

The trees are cut into logs.
