On our farm we have two bulls.
Bulls are male cattle.
Bulls cannot make milk.
The bulls **mate** with the cows
so that the cows will have babies.
Baby cattle are called calves.

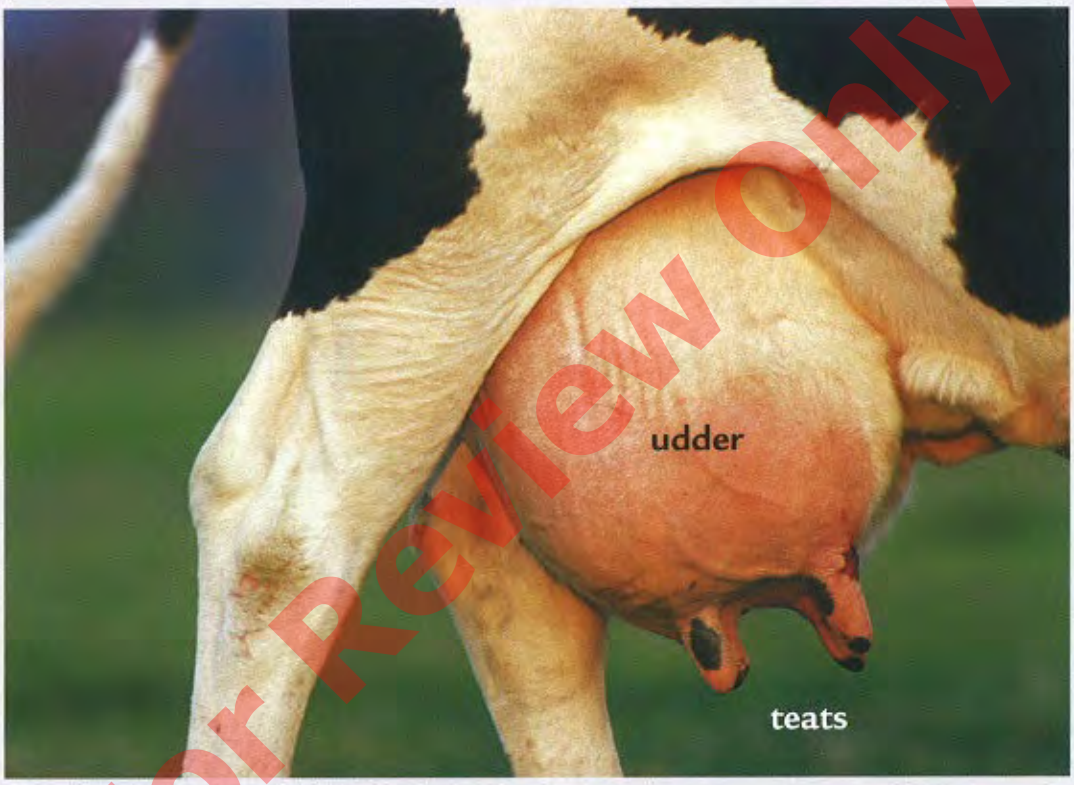

Milk for Calves

A cow makes milk inside her body.
She makes milk to feed her calf.
A cow will only make milk
if she has had a calf.

The milk is made inside the cow's **udder**.
There are **teats** on the udder.
A calf sucks on one of its mother's teats
to drink the milk.
