Chapter 1

# What Is Wool?

Wool is a soft **fibre** that grows on some animals.

We use wool to make:

Why do people like woollen clothes?

Woollen clothes:

- keep a person warm
- feel soft and light
- keep their shape
- are hard to burn.

Chapter 2

# Wool from Sheep

Most of the wool we use comes from sheep. Sheep live on farms.

For Review Only

Do different kinds of sheep grow different kinds of wool?

Some wool is thinner than others,
and some wool is longer than others.
Most sheep grow white wool,
but some sheep grow wool of other colours.

Chapter 3

# Feeding Sheep

Sheep live in **paddocks** on farms.
They eat grass and other plants
that grow in the paddocks.
Sometimes farmers give their sheep other food,
such as hay.
Sheep drink lots of water too.
