Building a House

PM+

For teachers' inspection ONLY

The builders are going to make a new house for us.

First of all,
a man comes with a digger.
The digger makes lots of ditches.

For teachers' inspection ONLY

The big concrete truck stops outside on the road. The bowl on the truck goes round and round.

For teachers' inspection ONLY

Lots of concrete comes out of the bowl.
It goes down a long hose,
and into the ditches.

For teachers' inspection ONLY

The walls are made of bricks.

The bricks go on top of the concrete.
