One Saturday morning, Mum said,
"It's going to be hot today
and the ground is very dry.
I will water the garden now."

"We will help you," said Matthew,
and he ran to get the hose.
He fixed it onto the tap
and turned it on.

"Matthew!" called Mum.
"Turn the water down, please.
It's coming out too fast."

Matthew went back to the tap and turned it down.

The water came out slowly.

"That's better," called Mum.
