For teachers' inspection ONLY

Emergency vehicles

Emergency vehicles help keep people safe.

They are used when people are sick or hurt or in danger.

All emergency vehicles can go very fast.

For teachers' inspection ONLY

It is easy to know
when emergency vehicles are coming.
They have sirens and flashing lights.
They have bright markings, too.

Other drivers have to make way
for emergency vehicles.

For teachers' inspection ONLY

Fire trucks

Fire trucks are bright red.
They have very loud sirens.

When people hear the siren,
they stop and make way for the fire truck.

For teachers' inspection ONLY

Did you know?

In a city,
firefighters can get water
from a hydrant
at the side of the road.

For teachers' inspection ONLY

Fire rescue

Fire trucks have long ladders
that reach up the sides of tall buildings.

Firefighters climb up the ladders
to rescue people
and spray water on the fire.
