Introduction

For teachers' inspection ONLY

Electricity is a kind of energy that we use to make things work.

Today, we know many ways to make electricity.

For teachers' inspection ONLY

We use electricity almost everywhere.

DID YOU KNOW?

Farmers use electric milking machines to milk many cows at once.

Making electricity

For teachers' inspection ONLY

Most of the electricity that we use comes from power stations. Power stations are buildings with special machines that make electricity for us.

Some power stations use steam to work the machines that make electricity.

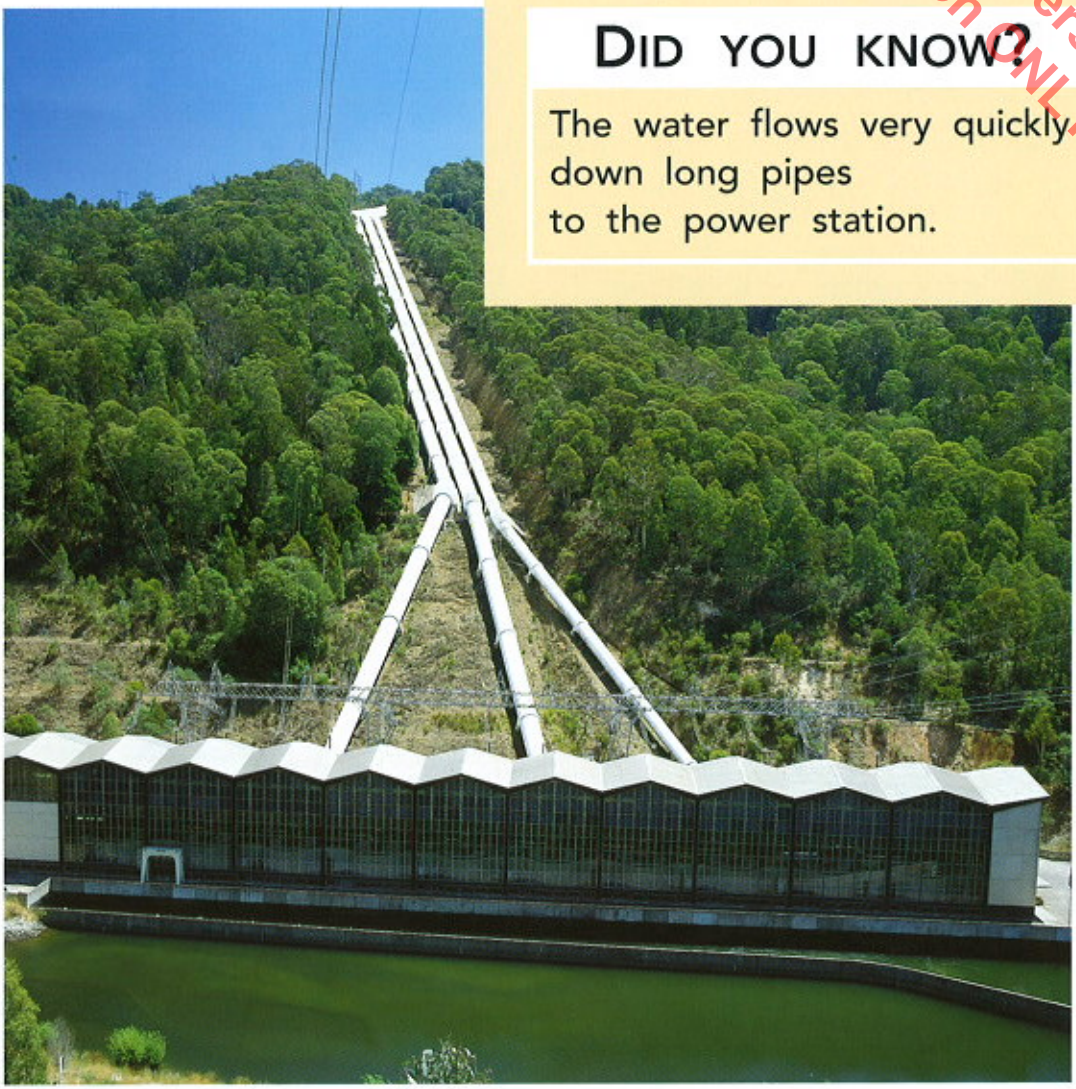

Others use water to work the machines.

For teachers' inspection ONLY

DID YOU KNOW?

The water flows very quickly down long pipes to the power station.

Power stations can make a lot of electricity.
