Our Senses

We have five senses.

We can see,

smell,

hear,

taste,

and feel things.

For Review Only

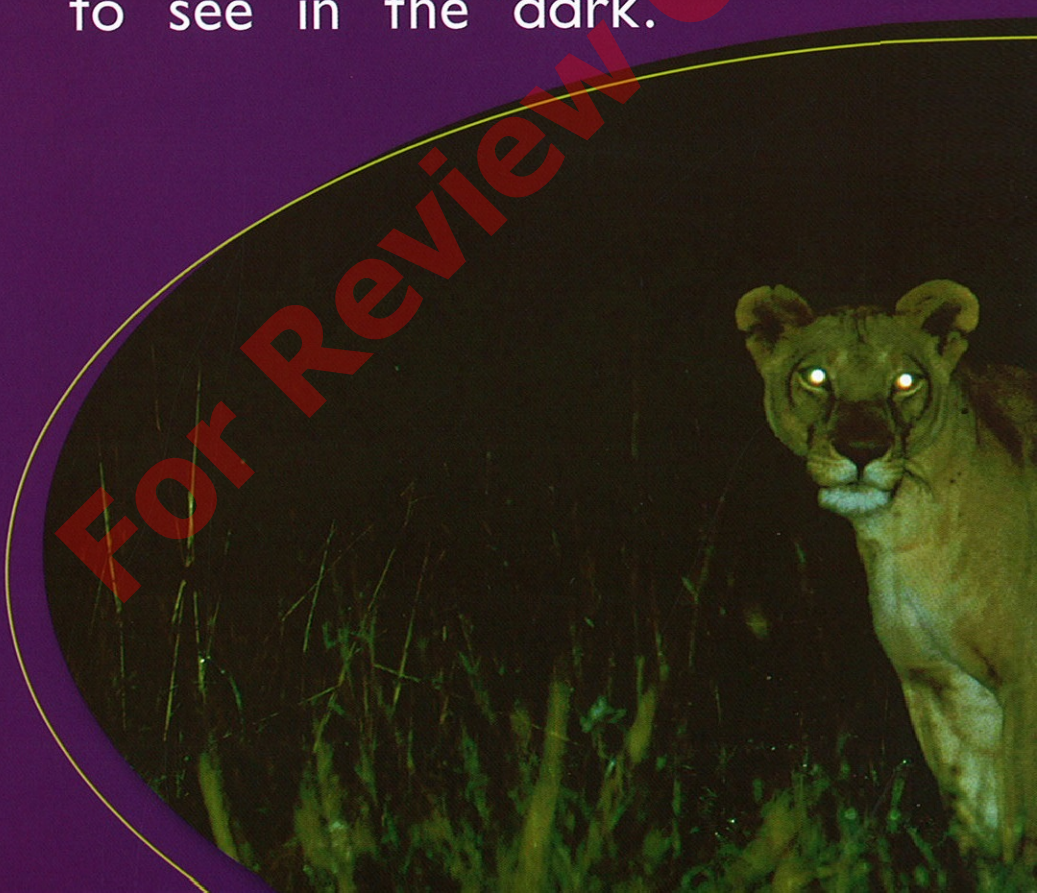

Animals have senses, too.
The senses help animals
to find food
and stay out of danger.

For Review Only

Lion

Look at this lion's eyes.
The lion's eyes help it
to see in the dark.

For Review Only

The lion is looking for food. It can see lots of animals in the dark.

For Review Only

Owl

This owl is sitting in a tree. It is looking for a mouse to eat.

For Review Only

An owl has big round eyes to help it see at night.
