The Sun

The sun is like
a big, hot ball.
Light from the sun
goes on to **Earth**.
We live on Earth.

For Review Only

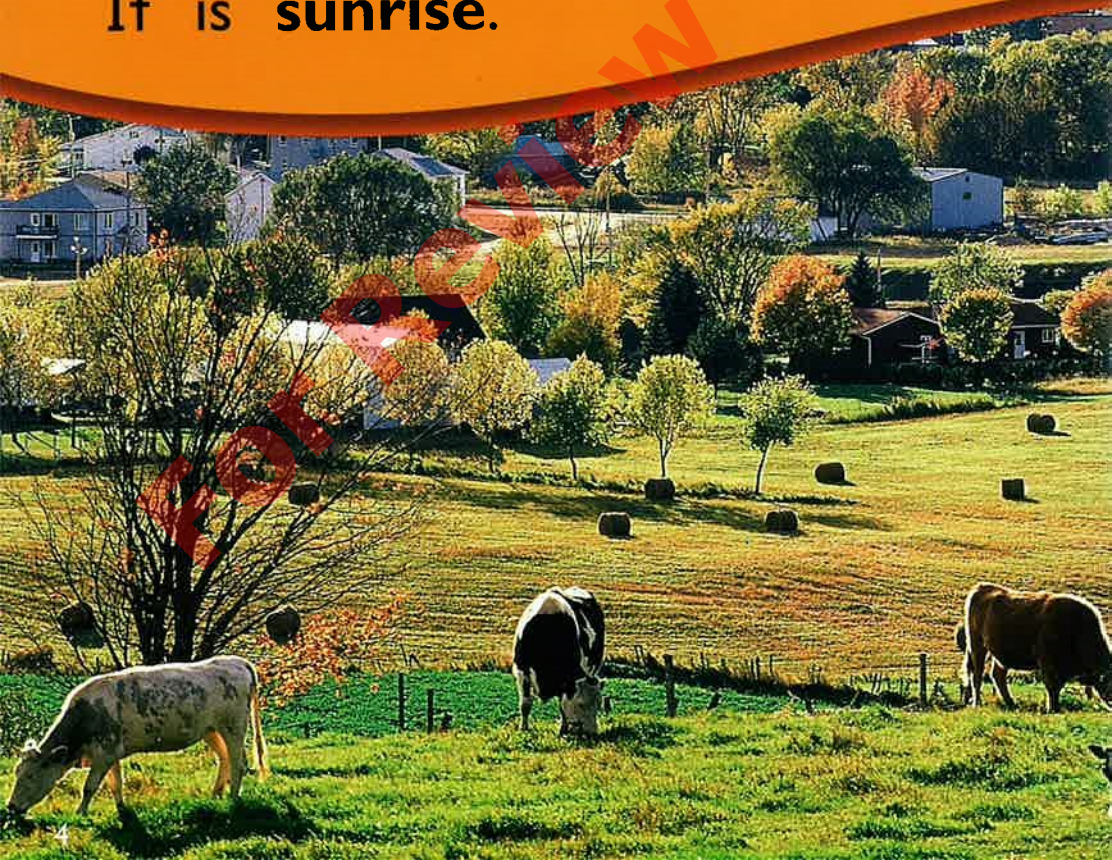

The sun warms Earth.
Warm sunshine helps plants
and animals to live.

For Review only

Daytime

The sun comes up
in the morning.
It lights up the sky.
It is **sunrise**.

For Preview Only

Lots of animals wake up.
We wake up, too.
It is daytime
when the sun has come up.

For Reading Only

Spring and Summer

In spring and summer,
there are lots of sunny days.
The sky is blue.
The sun warms the sea
and the land.

For Review Only

Some days are very hot.
We stay out of the sun
on very hot days.

It is dangerous
to look at the sun.
